Zhao, Yanbing

Email: yanbing.zhao2@mail.mcgill.ca

EDUCATION

- **M.M in Analytics**, **McGill University,** GPA: 4.0/4.0 *2026 – present*
  Selected Coursework: Text Analysis, Multivariate Statistical Analysis, AI & Deep Learning
- **B.A. in Advertising, Shanghai International Studies University,** GPA: 3.7/4.0 *2022 - 2026*
  Selected Coursework: Python Programming, Data Science & AI, Social Media & Big Data Mkt
- **GRE:** Verbal 159/170 (79%), Quantitative 168/170
- **Technical Skills:**
  - Programming: Python, R, SQL, SPSS.
  - Statistical Modeling: Linear Regression, Logistic Regression, Autoregression, Hypothesis Testing.
  - Machine Learning: Neural Networks, Random Forest, Gradient Boosting, KNN.
  - NLP: TF-IDF, Sentiment Analysis (VADER, SentiStrength), Lift, MDS, LDA Topic Modeling, Attention Mechanisms

RESEARCH EXPERIENCE

Research Assistant —Creators' Strategy Shift For Paywall Adoption *Sept. 2026 – Present*
Supervisor: Prof. Sameer Borwankar

- Conducted literature review on digital platform membership.
- Proposed a longitudinal comparison of paywall-adopting and free-content creators to investigate how monetization influences content composition and publishing strategies.
- Designed a longitudinal data collection framework tracking creators' historical follower counts, posting histories, monetization status, and content attributes.

Research Assistant — LLM News Hallucination Analysis *Feb. 2025 – Apr. 2025*
Supervisor: Prof. Wang, Ting

- Collected LLM-generated responses (fabricated and hallucinated) to 100 authentic news articles across ChatGPT, Gemini, Claude, Grok, and DeepSeek.
- Annotated hallucinated and fabricated information, highlighted inaccurate content and categorized outputs by model.

Research Assistant — OTA Online Advertising Optimization *Mar. 2025 – Aug. 2025*
Supervisor: Prof. Wang, Ting

- Conducted literature reviews on OTA advertising optimization, autoregressive models, and decision-tree methods
- Prepared manuscript, synthesized research findings, and formatted tables and figures for publication.
- Orally presented at the 2025 International Conference on Big Data and Artificial Intelligence (BDAI)**.**

PUBLICATION & PRESENTATION

Orally presented at BDAI 2025**:** Wang, T., Zhao, Y., & Wang, W. (2025). *OTA Advertising Strategies Optimization Using Auto-Regressive Model and Decision Trees*. BDAI 2025, pp. 260–265. IEEE DOI: 10.1109/BDAI66031.2025.11325727.

ACADEMIC PROJECTS

Introduction to AI & Deep Learning — AI-Generated Image Detection *Fall 2026*
Supervisor: Prof. Sameer Borwankar

- Collected 600 authentic images equally distributed across photographs, illustrations and text-rich graphics.
- Fine-tuned a CNN model (SReC) to learn the pixel patterns of authentic images calculated the coding-cost gap score combining actual coding cost (NLL) and expected coding cost (entropy).

Social Media Analysis — Google Maps Review Analysis *Fall 2026*
Supervisor: Prof. Taha Havakhor

- Scraped and manually rated the sentiment score for 200 Reviews on Google Map
- Explored word relations in the reviews using Lift measures and multidimensional scaling (MDS).
- Compared lexicon-based sentiment analysis (VADER, SentiStrength) with supervised classification (KNN).

Social Media and Big Data Marketing — Rednote Post Analysis *Spring 2025*
Supervisor: Prof. Lu, Xingyu

- Scraped 100 posts from a Tea Brand's homepage and 300 users' posts mentioning this Tea Brand.
- Came up with a unified codebook for group encoding.
- Manually labelled the posts into multiple dimensions regarding content topic; sentiment; whether promotional Ads; whether mentioning others, etc.
- Conducted descriptive analysis and data visualization based on the posts and labels.

PROFESSIONAL EXPERIENCE

Shanghai Wagas Catering Co., Ltd., *Aug. 2025 – Nov. 2025*
Product Management Intern, Full-time

- Monitored daily sales, revenue, average-quantity-per-table, average-sales-per-table, of limited-time-offer products across four brands and more than 300 stores biweekly performance.
- Consolidated information for bi-weekly new product launches, with 10 ~ 20 new products per time, and engaged with R&D discussions on product feasibility.
- Handled product listing / delisting requests in the central POS system, and coordinated across O2O and omnichannel marketing teams.

Bok Health Start-up Studio *Jul. 2025*
Marketing Intern, Full-time

- Identified three distinct potential customer groups for future marketing iteration.
- Reached out to 50 influencers per day on TikTok for further collaboration.

Play For Dream Co., Ltd., *Feb. 2025 – Jun. 2025*
Marketing Intern, Part-time

- Built partnerships with over 15 KOLs and participated in the full affiliate cycle—from outreach and commission negotiation to contract adjustment, shipment, video review, and collecting user feedback for R&D.
- Managed official accounts on social media platforms (X, Facebook, Instagram, LinkedIn) and contributed to over 1,000 new followers during internship.
- Responded to consumer inquiries via social media inboxes and received recognition for clarity and honesty.

GeneScience Pharmaceutical Co., Ltd., *Dec. 2024 – Feb. 2025*
New Media Intern, Part-time

- Edited 3 doctor-led educational videos per day, and uploaded them on TikTok as doctors' delegate.

- Wrote scripts for doctors with a balance of professionalism and intrigue.
- Assisted in filming when on field duty.

EXTRACURRICULAR ACTIVITIES

Museum Guide at SISU's World Language Museum (Nov. 2022 – May. 2025); TA at New Oriental's oversea education institute (Jun. 2024 – Aug. 2024); Home tutor for grade school students (Sept. 2024 – Nov. 2025); Grader for MGCR 382 – International Business (fall 2026); Member of McGill's calligraphy club (Oct. 2026 – now)
